INDEPENDENT AUDITOR'S REPORT

Board of Education Ross Valley School District San Anselmo, California

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Ross Valley School District, as of and for the fiscal year ended June 30, 2008, which collectively comprise the District's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of Ross Valley School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations;* the provisions of California Code of Regulations, Title 5, Education, Section 19810, and following; and the Education Audit Appeals Panel's *Standards and Procedures for Audits of California K-12 Local Education Agencies 2007-08.* Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

The financial statements referred to above include only the primary government of the Ross Valley School District, which consists of all funds that comprise the District's legal entity. The financial statements do not include financial data of the Ross Valley Schools Foundation, Ross Valley School District's legally separate component unit, which accounting principles generally accepted in the United States of America require to be reported with the financial data of the District's primary government. As a result, the primary government financial statements do not purport to, and do not, present fairly the financial position of the reporting entity of the Ross Valley School District, as of June 30, 2008, and the changes in its financial position, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Ross Valley School District, as of June 30, 2008, and the respective changes in financial position thereof for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 5, 2008, on our consideration of the Ross Valley School District's internal control over financial reporting and on our tests of the District's compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and important for assessing the results of our audit.

The Management's Discussion and Analysis on pages 3 through 13 and the budgetary comparison information on page 43 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Ross Valley School District's basic financial statements. The accompanying supplementary information, including the combining statements, the schedule of expenditures of federal awards, which is presented as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations,* and the remaining schedules listed in the table of contents, are presented for purposes of additional analysis, as required by the Education Audit Appeals Panel's *Standards and Procedures for Audits of California K-12 Local Education Agencies 2007-08,* and are not required parts of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

(PREPARED BY DISTRICT MANAGEMENT)

This section of Ross Valley School District's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2008. Please read it in conjunction with the Independent Auditor's Report presented on pages 1 and 2, and the District's financial statements, which immediately follow this section.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Assets and Statement of Activities, presented on pages 14 through 15, provide information about the activities of the District as a whole and present a longer-term view of the District's finances. The fund financial statements for governmental activities, presented on pages 16 through 19, provide information about how District services were financed in the short-term, and how much remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. The remaining statement provides financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside the District.

FINANCIAL HIGHLIGHTS

- ➤ The District's overall financial status declined during the year, as total net assets decreased 12%. (The decline was due primarily to the recognition of depreciation expense, which is a non-cash charge against net assets.)
- On the Statement of Activities, total current year expenses exceeded total current year revenues by \$1,209,879.
- > On the Statement of Revenues, Expenditures, and Changes in Fund Balances, total current year revenues exceeded current year expenditures by \$5,405.
- Capital assets, net of depreciation, decreased \$1,641,701, due to the current year acquisition of \$64,985 of new capital assets; the write-off of \$291,487 of costs previously capitalized as work-in-progress, and the current year recognition of \$1,415,199 of depreciation expense.
- Total long-term liabilities decreased \$412,731, due to the current year reduction of the District's obligations for general obligation bonds and capital leases.
- The District's P-2 ADA increased from 1,728 ADA in fiscal year 2006-07, up to 1,794 ADA in fiscal year 2007-08, an increase of 3.8%.
- > The District's General Fund incurred an operating deficit of \$137,061 during fiscal year 2007-08, and recognized a \$117,350 decrease in its available reserves.
- ➤ The District maintains sufficient reserves for a district its size. It meets the state required minimum reserve for economic uncertainty of 3% of general fund expenditures, transfers out, and other uses (total outgo). During fiscal year 2007-08, General Fund expenditures and other financing uses totaled \$17,251,550. At June 30, 2008, the District has available reserves of \$2,126,070 in the General Fund, which represents a reserve of 12.3%.

(PREPARED BY DISTRICT MANAGEMENT)

THE FINANCIAL REPORT

The full annual financial report consists of three separate parts, including the basic financial statements, supplementary information, and Management's Discussion and Analysis. The three sections together provide a comprehensive overview of the District. The basic financial statements are comprised of two kinds of statements that present financial information from different perspectives, government-wide and funds.

- Government-wide financial statements, which comprise the first two statements, provide both short-term and long-term information about the District's overall financial position.
- Individual parts of the District, which are reported as fund financial statements comprise the remaining statements.
 - Basic services funding is described in the governmental funds statements. These statements include short-term financing and identify the balance remaining for future spending.
 - Short and long-term financial information about the activities of the District that operate like businesses are provided in the proprietary fund statements.
 - Financial relationships, for which the District acts as an agent or trustee for the benefit of others to whom the resources belong, are presented in the fiduciary funds statements.

Notes to the financials, which are included in the financial statements, provide more detailed data and explain some of the information in the statements. The required supplementary information provides further explanations and provides additional support for the financial statements. A comparison of the District's budget for the year is included.

Reporting the District as a Whole

The District as a whole is reported in the Government-wide statements and uses accounting methods similar to those used by companies in the private sector. All of the District's assets and liabilities are included in the Statement of Net Assets. The Statement of Activities reports all of the current year's revenues and expenses regardless of when cash is received or paid.

The District's financial health or position (net assets) can be measured by the difference between the District's assets and liabilities.

- Increases or decreases in the net assets of the District over time are indicators of whether its financial position is improving or deteriorating, respectively.
- Additional non-financial factors such as the condition of school buildings and other facilities, and changes in the property tax base of the District need to be considered in assessing the overall health of the District.

(PREPARED BY DISTRICT MANAGEMENT)

THE FINANCIAL REPORT (CONCLUDED)

Reporting the District as a Whole (Concluded)

In the Statement of Net Assets and the Statement of Activities, we divide the District into two kinds of activities:

Governmental Activities:

The basic services provided by the District, such as regular and special education, administration, and special education transportation are included here, and are primarily financed by property taxes and state formula aid. Non-basic services, such as child nutrition are also included here, but are financed by a combination of local revenues, and state and federal programs.

Business-type Activities:

The District does not provide any services that should be included in this category.

Reporting the District's Most Significant Funds

The District's fund-based financial statements provide detailed information about the District's most significant funds. Some funds are required to be established by State law and bond covenants. However, the District establishes many other funds as needed to control and manage money for specific purposes.

Governmental Funds:

The major governmental funds of Ross Valley School District are the General Fund and Bond Interest and Redemption Fund. Governmental fund reporting focuses on how money flows into and out of the funds and the balances that remain at the end of the year. A modified accrual basis of accounting measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and services. Governmental fund information helps to determine the level of financial resources available in the near future to finance the District's programs.

Proprietary Funds:

Services for which the District charges a fee are generally reported in proprietary funds on a full accrual basis. These include both Enterprise funds and Internal Service funds. Enterprise funds are considered business-type activities and are also reported under a full accrual method. This is the same basis as business-type activities; therefore no reconciling entries are required. Internal service funds are reported with the Governmental Funds. The District has no funds of this type.

Fiduciary Funds:

The District is the trustee, or fiduciary, for its student activity funds. All of the District's fiduciary activities are reported in separate fiduciary statements. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance their operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

(PREPARED BY DISTRICT MANAGEMENT)

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE

GOVERNMENTAL ACTIVITIES

The District's total net assets decreased from \$10,101,713 at June 30, 2007, down to \$8,891,834 at June 30, 2008, a decrease of 12%.

Unrestricted		2,490,991		2,523,436
Total Net Assets	\$	10,101,713	\$	8,891,834

The deficit balance presented above for Restricted for Debt Service represents the difference between the obligation for accumulated accreted interest on the District's outstanding capital appreciation bonds and the amount available in the Bond Interest and Redemption Fund. This deficit will be eliminated by future property tax collections.

Totals	\$ 18,273,840	\$	20,190,567	\$	14,938,923	\$	17,012,735

The table above presents the cost of major District activities. The table also shows each activity's net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The \$17,012,735 cost represents the financial burden that was placed on the District's general revenues for providing the services listed. Further detail is available on page 15 of this report.

Program revenues financed 16% of the total cost of providing the services listed above, while the remaining 84% was financed by the general revenues of the District.

Totals	<u>\$ 20,746,314</u> <u>\$ 20,333,58</u>	83						

Total long-term liabilities decreased \$412,731, due to the current year reduction of the District's obligations for general obligation bonds and capital leases.

(PREPARED BY DISTRICT MANAGEMENT)

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE (CONCLUDED)

GOVERNMENTAL ACTIVITIES (CONCLUDED)

The general obligation bonds are financed by local taxpayers and represent 93% of the District's total long-term liabilities. The District has satisfied all of its debt service requirements for its bonded debt and continues to maintain an excellent credit rating on its current debt issues.

The capital leases are financed by the General Fund and represent 6% of the District's total long-term liabilities.

The notes to the financial statements are an integral part of the financial presentation and contain more detailed information as to interest, principal, retirement amounts, and future debt retirement dates.

FINANCIAL ANALYSIS OF DISTRICT'S FUNDS

Comparative Schedule of Fund Balances								
		nd Balances ne 30, 2007		nd Balances ne 30, 2008	(Increase Decrease)		
General Deferred Maintenance Cafeteria Bond Interest & Redemption Capital Facilities Building	\$	3,312,381 134,020 3,020 1,143,047 40,449 66,293	\$	3,175,320 137,153 38,840 1,184,039 112,554 56,709	\$	(137,061) 3,133 35,820 40,992 72,105 (9,584)		
Totals	\$	4,699,210	\$	4,704,615	\$	5,405		

The combined fund balances of all District funds increased \$5,405, while the fund balance of the General Fund decreased \$137,061.

GENERAL FUND BUDGETARY HIGHLIGHTS

The District's budget is prepared in accordance with California law and is based on the modified accrual basis of accounting. Over the course of the year, the District revises its budget based on updated financial information. The original budget, approved at the end of June for July 1, is based on May Revise figures and updated 45 days after the State approves its final budget. In addition, the District revises its budget at First and Second Interim to reflect the most current financial information available at that point in time.

(PREPARED BY DISTRICT MANAGEMENT)

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

- Student enrollment and attendance are primary factors in the computation of most funding formulas for public schools in the State of California. The District expects an increase of 54 ADA (3%) during fiscal year 2008-09.
- The State's economic condition is another major factor affecting the District's future. Since the financial well being of the District is tied in large measure to the state funding formula, management will need to plan carefully and prudently to provide the resources to meet student needs over the next several years. The District has an excellent track record in meeting this challenge in what has proven to be a cycle of lean years and prosperous years for education finances.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, parents, investors, and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions regarding this report or need additional financial information, contact the District Office, Ross Valley School District, 110 Shaw Drive, San Anselmo, CA 94960

ROSS VALLEY SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2008

Net Change in Fund Balances - Governmental Funds		\$ 5,405
Amounts reported for governmental activities in the statement of activities are lifferent due to the following:		
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement allocated over their estimated useful lives as annual depreciation expenses in the statement of activities. This is the amount by which depreciation expense exceeded capital outlays during the year:		
Capital Outlays Depreciation Expense	\$ 64,985 (1,415,199)	(1,350,214)
In the statement of activities, certain operating expenses-compensated absences (vacations), and post employment benefits are measured by the amounts earned during the fiscal year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). This year, the amounts earned exceeded the amounts		(1,550,214)
used by:		(6,934)
Debt service: In governmental funds, repayments of long-term debt are reported as expenditures. In the government-wide statements, repayments of long-term debt are reported as reductions of liabilities. Expenditures for repayment of the principal portion of long-term debt were:		
General Obligation Bonds Capital Leases	\$ 780,000 89,085	869,085
Costs previously included as work-in progress related to projects will not be		000,000
capitalized as completed projects must be written off to expense. Work-in-progress costs written off as expense during the year were:		(291,487
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. Accrued interest on long-term liabilities decreased by:		13,686
Accreted interest on capital appreciation bonds is not recognized as an expenditure in the governmental fund financial statements until paid. In the statement of activities, however, accreted interest is recognized as an expense as the capital appreciation bonds accrete in value. The amount of accreted interest recognized in		
the current year was:		 (449,420
Change in Net Assets of Governmental Activities		\$ (1,209,879

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

A. <u>Accounting Policies</u>

The Ross Valley School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of California. It is governed by a five member Board of Education elected by registered voters of the District, which comprises an area in Marin County. The District serves students in kindergarten through grade eight.

The District prepares its financial statements in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA) and complies with the policies and procedures of the Department of Education's *California School Accounting Manual*.

The District is also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989, when applicable, that do not conflict with or contradict GASB pronouncements. In addition, the District has the option to apply FASB pronouncements issued after that date to business-type activities and enterprise funds, if applicable. The District does not currently have any business-type activities or enterprise funds that require the District to follow the pronouncements of the FASB.

B. <u>Reporting Entity</u>

The District has reviewed criteria to determine whether other entities with activities that benefit the District should be included within its financial reporting entity under GASB Statement No. 14 (GASB 14), *The Financial Reporting Entity*. The criteria include, but are not limited to, whether the entity exercises oversight responsibility (which includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters), the scope of public service, and a special financing relationship. The District has determined that there are no entities, with financial activities that benefited the District, during fiscal year 2007-08, which should be included within its financial reporting entity under GASB 14.

GASB Statement No. 39 (GASB 39), *Determining Whether Certain Organizations are Component Units*, provides further guidance to determine whether certain organizations for which the District is not financially accountable should be reported as component units based on the nature and significance of the component units' relationship with the District. The District has determined that the Ross Valley Schools Foundation meets the criteria set forth in GASB 39. However, audited financial statements were not available for inclusion in the District's financial statements. Accordingly, only the financial activities of the Ross Valley Schools Foundation that flow through the District are presented on page 18 under the caption "Component Unit".

The District is not aware of any entity that would exercise such oversight responsibility that would result in the District being considered a component unit of that entity.

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Presentation

Government-wide Financial Statements:

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the non-fiduciary activities of the District and its component units. The effect of interfund activity, within the governmental and business type activities columns, has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The government-wide financial statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund and fiduciary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for the governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the statement of activities. Program revenues include charges paid by the recipients of goods or services offered by a program, as well as grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements:

Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major governmental fund is presented in a separate column, and all non-major funds are aggregated into one column. Fiduciary funds are reported by fund type.

The accounting and financial treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The Statement of Revenues, Expenditures, and Changes in Fund Balances for these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

Fiduciary funds are reported using the economic resources measurement focus.

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds use the accrual basis of accounting.

Revenues - Exchange and Non-exchange Transactions:

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded under the accrual basis when the exchange takes place. Under the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Available" means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, "available" means collectible within the current period or within 45, 60, 90 days after year-end, depending on the revenue source. However, to achieve comparability of reporting among California Districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to state apportionments, the California Department of Education has defined available as collectible within one year.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, and entitlements. Under the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and entitlements is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. Under the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Deferred Revenue:

Deferred revenue arises when assets are received before revenue recognition criteria have been satisfied. Grants and entitlements received before eligibility requirements are met are recorded as deferred revenue. On governmental fund financial statements, receivables associated with non-exchange transactions that will not be collected within the availability period have also been recorded as deferred revenue.

Expenses/Expenditures:

On an accrual basis of accounting, expenses are recognized at the time a liability is incurred. On the modified accrual basis of accounting, expenditures are generally recognized in the accounting period in which the related fund liability is incurred, as under the accrual basis of accounting. However under the modified accrual basis of accounting, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Fund Accounting

The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity or retained earnings, revenues, and expenditures or expenses, as appropriate. District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The District's accounts are organized into major, non-major, and fiduciary funds as follows:

Major Governmental Funds:

General Fund is the general operating fund of the District. It is used to account for all transactions except those required or permitted by law to be accounted for in another fund. The financial activities of the General Fund have been divided into two separate columns on the Governmental Funds - Statement of Revenues, Expenditures, and Changes in Fund Balances. The first column reflects revenues received from *District* sources along with all expenditures of the General Fund. The second column reflects revenues received for General Fund purposes that are provided by the District's *Component Unit*. This presentation has been included to illustrate the District's heavy reliance on Ross Valley Schools Foundation's support for providing its educational programs.

Bond Interest and Redemption Fund is used to account for the accumulation of resources for the repayment of District bonds, interest, and related costs.

Non-major Governmental Funds:

Deferred Maintenance Fund is used for the purpose of major repairs or replacement of District property.

Cafeteria Fund is used to account for revenues received and expenditures made to operate the District's cafeteria program.

Capital Facilities Fund is used to account for resources received from developer impact fees assessed under provision of the California Environmental Quality Act (CEQA).

Building Fund is used to account for the acquisition and/or construction of major capital facilities and buildings financed from the sale of general obligation bonds.

Special Reserve Fund was used during fiscal year 2007-08 to account for expenditures and insurance reimbursements for items related to the Manor arson fire of May 2008.

Fiduciary Funds:

Agency Funds are used to account for assets of others for which the District acts as an agent. The District maintains one agency fund for the student body activities at the White Hill Middle School. The District maintains student body funds, which are used to account for the raising and expending of money to promote the general welfare, and educational experience of the student body.

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds. By state law, the District's governing board must adopt a final budget no later than July 1. A public hearing must be conducted to receive comments prior to adoption. The District's governing board satisfied these requirements.

These budgets are revised by the District's Governing Board and Superintendent during the year to give consideration to unanticipated income and expenditures. The original and final revised budget is presented for the General Fund as required supplementary information on page 43.

Formal budgetary integration was employed as a management control device during the year for all budgeted funds. The District employs budget control by minor object and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object account (See Note 3).

G. <u>Use of Estimates</u>

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

H. <u>Encumbrances</u>

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated at June 30.

I. Assets, Liabilities and Equity

1. Deposits and Investments

The District is authorized to maintain cash in banks and revolving funds that are insured to \$100,000 by the Federal Depository Insurance Corporation (FDIC).

The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (Education Code Section 41001).

The County is authorized to deposit cash and invest excess funds by California *Government Code* Section 53648 et seq. The funds maintained by the County are either secured by the FDIC or are collateralized.

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Assets, Liabilities and Equity (Continued)

1. Deposits and Investments (Concluded)

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies; certificates of participation; obligations with first priority security; and collateralized mortgage obligations.

Investments with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost.

2. <u>Prepaid Expenses/Expenditures</u>

The District has the option of reporting an expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The District has chosen to report the expenditure during the period benefited.

Reported prepaid expenses are equally offset by a net assets reserve, which indicates that these amounts are not "available for appropriation and expenditure" even though they are a component of net current assets.

3. Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the asset's lives are not capitalized, but are expensed as incurred. Depreciation on all capital assets is computed using a straight-line basis over the following estimated useful lives:

Asset Class	Years
Sites and Improvements	10-36
Buildings and Improvements	30-35
Furniture and Equipment	6-15

4. Deferred Revenue

Cash received for federal and state special projects and programs is recognized as revenue to the extent that qualified expenditures have been incurred. Deferred revenue is recorded to the extent that cash received on specific projects and programs exceeds qualified expenditures. Deferred revenue includes the premiums associated with the bonds issued, when applicable, which are amortized over the life of the bond obligation.

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Assets, Liabilities and Equity (Continued)

5. <u>Compensated Absences</u>

All vacation pay is accrued when incurred in the government-wide financial statements.

Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expense in the period taken, since such benefits do not vest, nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

6. Long-term Liabilities

In the government-wide financial statements, long-term debt and other long-term obligations are reported as long-term liabilities in the Statement of Net Assets. Bond premiums and discounts, as well as issuance costs, when applicable, are deferred and amortized over the life of the bonds. Bonds payable are reported net of applicable bond premium or discount.

In the fund financial statements, governmental funds recognize bond premiums and discounts as well as bond issuance costs, during the current period. The face amount of the debt issued, premiums, or discounts is reported as other financing sources or uses.

7. Fund Balance Reserves and Designations

Reservations of the ending fund balance indicate the portions of fund balance not appropriable for expenditure or amounts legally segregated for a specific future use. These amounts are not available for appropriation and expenditure at the balance sheet date. Designations of the ending fund balance indicate tentative plans for financial resource utilization in a future period.

8. <u>Revenue Limit/Property Tax</u>

The District's revenue limit is received from a combination of local property taxes, state apportionments, and other local sources.

The County of Marin is responsible for assessing, collecting and apportioning property taxes. Taxes are levied for each fiscal year on taxable real and personal property in the county. The levy is based on the assessed values as of the preceding January 1, which is also the lien date. Property taxes on the secured roll are due on November 1 and February 1, and taxes become delinquent after December 10 and April 10, respectively. Property taxes on the unsecured roll are due on the lien date (January 1), and become delinquent if unpaid by August 31.

Secured property taxes are recorded as revenue when apportioned, in the fiscal year of the levy. The county apportions secured property tax revenue in accordance with the alternative method of distribution prescribed by Section 4705 of the California *Revenue and Taxation Code.* This alternate method provides for crediting each applicable fund with its total secured taxes upon completion of the secured tax roll, approximately October 1 of each year.

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (CONCLUDED)

I. Assets, Liabilities and Equity (Concluded)

8. <u>Revenue Limit/Property Tax (Concluded)</u>

The County Auditor reports the amount of the District's allocated property tax revenue to the California Department of Education. Property taxes are recorded as local revenue limit sources by the District.

The California Department of Education reduces the District's entitlement by the District's local property tax revenue. The balance is paid from the State General Fund, and is known as the state apportionment.

The District's Base Revenue Limit is the amount of general purpose tax revenue, per average daily attendance (ADA), that the District is entitled to by law. This amount is multiplied by the applicable attendance period ADA to derive the District's total entitlement.

NOTE 2 - DEPOSITS AND INVESTMENTS

Summary of Deposits and Investments

Deposits and investments as of June 30, 2008, consist of the following:

	Gov A	Fiduciary <u>Activities</u>		
Cash on Hand and in Banks Cash in Revolving Fund County Pool Investments	\$	16,397 3,000 <u>4,550,076</u>	\$ 31,377	
Total Deposits and Investments	\$	4,569,473	\$ <u>31,377</u>	

Cash on Hand and in Banks

Cash on hand and in banks consists of all cash held by the District and all cash maintained in commercial bank accounts owned by the District, exclusive of amounts held in revolving funds.

Cash in Revolving Fund

Cash in revolving fund consists of all cash maintained in commercial bank accounts that are used as revolving funds.

County Pool Investments

County pool investments consist of District cash held by the Marin County Treasury that is invested in the county investment pool. The fair value of the District's investment in the pool is reported in the financial statements at amounts that are based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio).

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 2 - DEPOSITS AND INVESTMENTS (CONTINUED)

General Authorization

Limitations as they relate to interest rate risk, credit risk, and concentration of credit risk are indicated in the schedule below:

	Maximum	Maximum	Maximum
Authorized	Remaining	Percentage	Investment
Investment Type	Maturity	of Portfolio	in One Issuer
Local Agency Bonds, Notes, Warrants	5 years	None	None
Registered State Bonds, Notes, Warrants	5 years	None	None
U.S. Treasury Obligations	5 years	None	None
U.S. Agency Securities	5 years	None	None
Banker's Acceptance	180 days	40%	30%
Commercial Paper	270 days	25%	10%
Negotiable Certificates of Deposit	5 years	30%	None
Repurchase Agreements	1 year	None	None
Reverse Repurchase Agreements	92 days	20% of base	None
Medium-Term Notes	5 years	30%	None
Mutual Funds	N/A	20%	10%
Money Market Mutual Funds	N/A	20%	10%
Mortgage Pass-Through Securities	5 years	20%	None
County Pooled Investment Funds	N/A	None	None
Local Agency Investment Fund (LAIF)	N/A	None	None
Joint Powers Authority Pools	N/A	None	None

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rate will adversely affect the fair value of an investment. Generally, as the length of the maturity of an investment increases, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County Treasury that purchases a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Segmented Time Distribution

Information about the sensitivity of the fair value of the District's investment to market interest rate fluctuations is provided by the following schedule that shows the distribution of the District's investment by maturity:

Investment Type	 Carrying Value	Fair Value		L	ess Than 1 Year	More Than <u>1 Year</u>		
County Pool Investments	\$ 4,550,076	\$	4,562,395	\$	3,597,990	\$	952,086	

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 2 - DEPOSITS AND INVESTMENTS (CONCLUDED)

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by the California Government Code, the District's investment policy, or debt agreements, and the actual rating as of the year-end for each investment type.

	Carrying	Fair	Ratin	ig as of Yea	ar End		
Investment Type	 Value	 Value	AAA	Aa		Unrated	
County Pool Investments	\$ 4,550,076	\$ 4,562,395			\$	4,550,076	

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond the amount stipulated by the California Government Code. However, the District does not hold any investments in any one issuer, at year-end, that represents five percent or more of the total investments held by the District.

Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2008, the District does not have a bank balance that is exposed to custodial credit risk.

Custodial Credit Risk - Investments

This is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The District does not have a policy limiting the amount of securities that can be held by counterparties. As of June 30, 2008, the District does not have any investments that are held by counterparties.

Derivative Investments

The District does not directly invest in any derivative investments. Information relating to the use of derivative investments by the Marin County Treasury was not available.

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 3 - EXCESS OF EXPENDITURES OVER APPROPRIATIONS

Excess of expenditures over appropriations in individual funds were as follows:

General Fund:	Excess <u>Expenditures</u>
Certificated Salaries	55,735
Classified Salaries	39,275
Books and Supplies	49,491
Capital Outlay	17,456
Debt Service: Interest and Fiscal Charges	53,974

The District incurred unanticipated expenditures in each of the above expenditure classifications for which the budget was not revised.

NOTE 4 - <u>RECEIVABLES</u>

Receivables at June 30, 2008 consist of the following:

		Non-Major						
	General	General Governmental						
	Fund	<u>Funds</u>	<u>Totals</u>					
Federal Government								
Categorical Programs	\$ 194,260	\$ 17,253	<u>\$ 211,513</u>					
State Government								
State Aid	635,567		635,567					
Categorical Programs	74,354	1,122	75,476					
Lottery	85,553		85,553					
Other Allowances	48,359		48,359					
Total State	843,833	1,122	844,955					
Local Governments	63,050		63,050					
Miscellaneous	138,475		138,475					
Totals	<u>\$ 1,239,618</u>	<u>\$ 18,375</u>	<u>\$ 1,257,993</u>					

NOTE 5 - INTERFUND ACTIVITIES

Interfund transactions are reported as either loans, services provided, reimbursements, or transfers. Loans are reported as interfund receivables and payables, as appropriate, and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 5 - INTERFUND ACTIVITIES (CONCLUDED)

A. <u>Due From/Due To Other Funds</u>

Individual fund interfund receivable and payable balances at June 30, 2008 were as follows:

Funds		terfund :eivables	terfund ayables
General Cafeteria	\$	6,997	\$ 63,528 6,997
Capital Facilities		2,203	
Special Reserve		61,325	
Totals	<u>\$</u>	70,525	\$ 70,525

All interfund receivables and payables are scheduled to be paid within one year.

B. Interfund Transfers

Interfund transfers consist of operating transfers from funds receiving revenue to funds through which the resources are to be expended.

Interfund transfers for fiscal year 2007-08 were as follows:

Funds	Transfers In		Tra	nsfers Out
General - District General - Component Unit	\$	519,034	\$	135,170 519,034
Deferred Maintenance		73,845		,
Capital Facilities				34,779
Building		34,779		
Special Reserve		61,325		
Totals	<u>\$</u>	688,983	<u>\$</u>	688,983

Transfer of \$73,845 from General Fund to Deferred Maintenance Fund to match state allocation.

Transfer of \$61,325 from General Fund to Special Reserve Fund to eliminated deficit balance.

Transfer of \$519,034 contribution from General Fund - Component Unit to General Fund - District to support educational programs.

Transfer of \$34,779 from Capital Facilities Fund to Building Fund to reimburse costs of new construction at Manor School.

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 6 - CAPITAL ASSETS AND DEPRECIATION

Capital asset activity for the year ended June 30, 2008, is presented below:

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 11 - EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer contributory retirement plans maintained by agencies of the State of California. Certificated employees are members of the State Teachers' Retirement System (STRS) and classified employees are members of the Public Employees' Retirement System (PERS).

A. State Teachers' Retirement System (STRS)

Plan Description

The District contributes to the State Teachers' Retirement System (STRS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by STRS. The plan provides retirement, disability, and survivor benefits to plan members and beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law. STRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the STRS annual financial report may be obtained from the STRS, 7667 Folsom Boulevard, Sacramento, California 95826.

Funding Policy

Active plan members are required to contribute 8.0% of their salary and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the STRS Teachers' Retirement Board. The required employer contribution rate for fiscal year 2007-08 was 8.25% of annual payroll. The contribution requirements of the plan members are established by State statute. The District's contributions to STRS for the fiscal years ended June 30, 2008, 2007, and 2006, were \$697,346, \$608,084, and \$583,050, respectively, and equal 100% of the required contributions for each year.

B. <u>California Public Employees' Retirement System (CalPERS)</u>

Plan Description

The District contributes to the School Employer Pool under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, CA 95814.

Active plan members are required to contribute 7.0% of their salary and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CaIPERS Board of Administration. The required employer contribution rate for fiscal year 2007-08 was 9.306%. The contribution requirements of the plan members are established by State statute. The District's contributions to CaIPERS for the fiscal years ended June 30, 2008, 2007, and 2006, were \$237,867, \$227,948, and \$225,539, respectively, and equal 100% of the required contributions for each year.

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 11 - EMPLOYEE RETIREMENT SYSTEMS (CONCLUDED)

C. <u>Social Security</u>

As established by Federal law, all public sector employees who are not members of their employer's existing retirement system (STRS or PERS) must be covered by social security or an alternative plan. The District has elected to use Social Security as its alternative plan. Contributions made by the District and an employee vest immediately. The District contributes 6.2% of an employee's gross earnings. An employee is required to contribute 6.2% of his or her gross earnings.

NOTE 12 - ON-BEHALF PAYMENTS MADE BY THE STATE OF CALIFORNIA

The District was the recipient of on-behalf payments made by the State of California to the State Teachers' Retirement System (STRS) for K-12 education. These payments consist of state general fund contributions of \$381,840 to STRS (4.517% of salaries subject to STRS). In addition to the normal rate, an additional rate of 2.237% was applied to the District's 2003-04 salaries and recorded as a contribution in fiscal year 2007-08.

NOTE 13 - RISK MANAGEMENT

The District is exposed to various risks of loss related to theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2007-08, the District participated in two joint powers authorities (JPAs) for purposes of pooling for risk. There were no significant reductions in coverage during the year. Settlements have not exceeded coverage in any of the past three years.

NOTE 14 - JOINT VENTURES

A. Marin Pupil Transportation Agency (MPTA)

The District participates in a joint venture under a joint powers agreement with MPTA for pupil transportation services for special education children. The relationship between the District and MPTA is such that MPTA is not a component unit of the District for financial reporting purposes.

MPTA arranges for and/or provides special education transportation services for its members. MPTA is governed by a board consisting of a representative from each member district. MPTA's board controls the operations of MPTA, including selection of management and approval of operating budgets, independent of any influence by the member districts beyond their representation on the Board. Each member district pays a fee commensurate with the level of service requested, and shares surpluses and deficits proportionately to their participation in MPTA.

MPTA is audited on an annual basis. Audited financial statements can be obtained by contacting MPTA's management.

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 14 - JOINT VENTURES (CONCLUDED)

B. Marin Schools Insurance Authority (MSIA)

The District participates in a joint venture under a joint powers agreement with MSIA for workers' compensation and property and liability insurance. The relationship between the District and MSIA is such that MSIA is not a component unit of the District for financial reporting purposes.

MSIA arranges for and/or provides coverage for its members. MSIA is governed by a board consisting of a representative from each member district. MSIA's governing board controls the operations of MSIA, including selection of management and approval of operating budgets independent of any influence by the member districts beyond their representation on the Board. Each member district pays a premium commensurate with the level of coverage requested and shares surpluses and deficits proportionately to their participation in MSIA.

MSIA is audited on an annual basis. Audited financial statements can be obtained by contacting MSIA's management.

C. Schools Excess Liability Fund (SELF)

The District participates in a joint venture under a joint powers agreement with SELF which provides workers' compensation and property and liability insurance for its members in excess of their standard liability insurance coverage. The relationship between the District and SELF is such that SELF is not a component unit of the District for financial reporting purposes.

SELF is governed by a board consisting of an elected representative for each of six California divisions; the District is a member of one of these divisions. SELF's governing board controls the operations of SELF, including selection of management and approval of operating budgets independent of any influence by the member districts beyond their representation on the Board. Each member district pays a premium commensurate with the level of coverage requested and shares surpluses and deficits proportionately to their participation in SELF.

SELF is audited on an annual basis. Audited financial statements can be obtained by contacting SELF's management.

NOTE 15 - OTHER POST EMPLOYMENT BENEFITS

In addition to the pension benefits described in Note 11, the District also offers certificated and classified employees with 10 years of service in the District who elect to retire after the age of 55 the right to participate in the health and dental insurance plans. The retirees shall contribute the entire cost of the plans less the District's contribution. The District contributes the CalPERS required contribution. Based on the most recent actuarial study, performed in June 2008, the outstanding obligation for providing these benefits was projected to be \$4,744,000. The District recognizes the costs of these benefits when there is a cash outlay (the pay as-you-go method) rather than recording the cost for post employment benefits as they are earned by the active employees (the actuarial method). During fiscal year 2007-08, the District paid \$24,139 to provide these benefits for 58 eligible retirees.

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 16 - COMMITMENTS AND CONTINGENCIES

A. State and Federal Allowances, Awards and Grants

The District has received state and federal funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursements will not be material.

B. <u>Litigation</u>

The District is subject to various legal proceedings and claims. In the opinion of management, the ultimate liability with respect to these actions will not materially affect the financial position or results of operations of the District.

NOTE 17 - ECONOMIC DEPENDENCY

During the year, the District received \$2,069,997 of parcel tax revenue that is subject to voter approval, and \$519,034 from the Ross Valley Schools Foundation, a non-profit charitable organization, that is subject to voluntary public contributions to the organization.

Available Reserves as a Percentage of Total Outgo	10.9%	12.3%	14.4%	12.2%
Average Daily Attendance at P-2	1,848	1,794	1,728	1,675
Total Long-Term Liabilities	\$ 19,323,060	\$ 20,333,583	\$ 20,746,314	\$ 21,091,323

* The amounts reported for the 2008-09 budget are presented for analytical purposes only and have not been audited.

The fund balance of the General Fund increased \$791,818 (33.2%) over the past two years. The fiscal year 2008-09 budget projects a decrease of \$369,824 (11.6%). For a district this size, the state recommends available reserves of at least 3% of total general fund expenditures, transfers out, and other uses (total outgo).

The General Fund produced operating surpluses of \$10,374 and \$928,879, during fiscal years 2005-06 and 2006-07, respectively, and incurred an operating deficit of \$137,061 during fiscal year 2007-08.

Average daily attendance increased 119 ADA over the past two years. The District projects an increase of 54 ADA during fiscal year 2008-09.

Total long-term liabilities decreased \$757,740 over the past two years, due primarily to the reduction of the District's obligations for general obligation bonds and capital leases.

NOTES TO SUPPLEMENTARY INFORMATION

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 1 - PURPOSE OF STATEMENTS AND SCHEDULES

A. Schedule of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 34, the District is required to present a Schedule of Revenues, Expenditures, and Changes in Fund Balance budgetary comparison for the General Fund and each Major Special Revenue Fund that has an adopted budget. This schedule presents the original adopted budget, final adopted budget, and the actual revenues and expenditures of each of these funds by object.

B. <u>Combining Statements</u>

Combining statements are presented for purposes of additional analysis, and are not a required part of the District's basic financial statements. These statements present more detailed information about the financial position and financial activities of the District's individual funds.

C. Schedule of Average Daily Attendance

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

D. Schedule of Instructional Time

The District receives incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code Sections 46200 through 46206.

E. Schedule of Expenditures of Federal Awards

The accompanying schedule of expenditures of federal awards includes the federal grant activities of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

F. Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balances of all funds, as reported in the Annual Financial and Budget Report to the audited financial statements.

G. Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

NOTES TO SUPPLEMENTARY INFORMATION

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 2 - EXCESS SICK LEAVE

No excess sick leave, as defined in Education Code Section 22170.5(c), was expressly authorized or accrued by District employees who were members of the California State Teachers Retirement System during fiscal year 2007-08.

INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE

Board of Education Ross Valley School District San Anselmo, California

We have audited the basic financial statements of Ross Valley School District, as of and for the year ended June 30, 2008, and have issued our report thereon dated December 5, 2008. Our audit was conducted in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the provisions of California Code of Regulations, Title 5, Education, Section 19810 and following; and the Education Audit Appeals Panel's *Standards and Procedures for Audits of California K-12 Local Educational Agencies 2007-08.* Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The District's management is responsible for the District's compliance with laws and regulations. In connection with the audit referred to above, we selected and tested transactions and records to determine the District's compliance with the state laws and regulations applicable to the following items:

Board of Education Ross Valley School District Page Three

We did not perform tests for the independent study program because the ADA claimed by the District does not exceed the threshold that requires testing.

Based on our audit, we found that, for the items tested, the Ross Valley School District complied with the state laws and regulations of the state programs referred to above. Further, based on our examination, for items not tested, nothing came to our attention to indicate that the Ross Valley School District had not complied with the state laws and regulations.

This report is intended solely for the information and use of the District's Board, management, California State Controller's Office, California Department of Finance, California Department of Education, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Education Ross Valley School District San Anselmo, California

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Ross Valley School District, as of and for the fiscal year ended June 30, 2008, and have issued our report thereon dated December 5, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph in this section and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. Board of Education Ross Valley School District Page Two

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the District's Board, management, California State Controller's Office, California Department of Finance, California Department of Education, Federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Board of Education Ross Valley School District San Anselmo, California

Compliance

We have audited the compliance of Ross Valley School District with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2008. The District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grant agreements, applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on Ross Valley School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Ross Valley School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Ross Valley School District's compliance with those requirements.

In our opinion, Ross Valley School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008.

Internal Control Over Compliance

The management of Ross Valley School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the District's Board, management, California State Controller's Office, California Department of Finance, California Department of Education, Federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.
